OBJECTIVE

Results-driven final-year BCA student seeking a Frontend / Full-Stack Web Developer role. Proficient in React.js, Node.js, Express, and MongoDB with hands-on internship experience and 40+ deployed projects on GitHub. Passionate about building scalable, user-friendly web applications and integrating AI-powered features.

EDUCATION

Vishveshwarya Institute of Engineering and Technology
Bachelor of Computer Applications (BCA)

Dadri, Uttar Pradesh
Aug 2023 – Aug 2026

EXPERIENCE

Web Development Intern – Codveda Technology

Remote | 2026

- Built and deployed multiple frontend projects including a portfolio page, and a to-do list application.
- Developed responsive interfaces using React.js and Tailwind CSS.
- Practiced industry-level Git workflow, version control, and project documentation.

PROJECTS

PitchAI – AI-Powered Pitch Deck Generator *React.js, Node.js, Express, MongoDB, Groq AI, Tailwind CSS*

- Built a full-stack SaaS tool that generates professional pitch decks using the Groq AI API based on user prompts.
- Implemented multiple slide templates, an edit modal, and PPTX export via PptxGenJS.
- Designed an Apple-style dark UI with glassmorphism and a deck history dashboard for managing past generations.
- Deployed frontend on Vercel and backend on Render with UptimeRobot to prevent cold starts.
- **Live:** [AI Pitch Deck](#)

Lost & Found Web Portal *React.js, Node.js, Express, MongoDB, Cloudinary, Socket.io, Tailwind CSS*

- Built a full-stack web application for reporting and claiming lost/found items with secure JWT authentication.
- Integrated Cloudinary for image storage to handle Render's ephemeral filesystem limitation.
- Implemented real-time notifications using Socket.io and a password change feature.
- Designed a fully mobile-responsive UI with category-based filtering and dynamic item detail pages.
- **Live:** [Lost & Found Website](#)
